

SOUTH WEST REGIONAL Council Charter 2009

Industry Vision

In 2020, the Western Australian resources sector leads the world in sustainable practice through innovation and underpins Australia's position in the global economy.

Committee Purpose

- Provide CME with industry representation and views
- Enable collaboration amongst members
- Input into policy development on issues impacting the resources sector within the regions

INDUSTRY STRATEGY		KEY ISSUE	PRIORITISED STRATEGY
INFRASTRUCTURE AND PLANNING Infrastructure capacity meets growth needs	An industry-government infrastructure plan for state and regional development	No current infrastructure plan for SW development	Ensure that a plan is developed that meets the current and future needs of the industry in the areas of: Port, Rail and Roads
		Lengthy approvals process	Provide advice to CME Approvals Working Group and ensure the SW issues are adequately addressed
	Coordination between the responsibilities of government, industry and community in the provisions of social and physical infrastructure	Unknown impact of water reform and energy policy on industry and the community	Gain a greater understanding of the water reform and its impact to the SW and the community Work with CME's Energy Reference Group to develop an energy policy that meets the needs of all parties
COMMUNITIES Sustainable regional hubs & communities	Community engagement inform decision making on industry issues	Community tends to have biased views of industry	Develop a strategic communication plan that targets specific areas of the community and to inform the community of the benefits of the industry
COMMUNITIES Community contribution valued	Contribute to community development	The community has a view that industry should pay for a variety of things	Build community knowledge to ensure the community understand the value of the industry
