The industry is one of the largest employers in the Western Australian private sector, contributing to over 15% of the government's revenue from payroll taxes.

Over the next two years, the industry will need as many as another 40,000 workers.

Every year, the Chamber of Minerals and Energy of Western Australia surveys members on where and how much they spent on payments to employees, businesses, community, local councils and to government.

To present a better snapshot this year, data was collated from past surveys, 2020 annual reports and 2019/20 surveys of actual expenditure - representing 70% of the Western Australian resources sector by production.
